

**Extension and opening to the public of the exhibition
Matières à l'œuvre, Matière à penser, Manière de faire
at the Galerie des Gobelins in Paris until June 6th 2021**

Ateliers Bernard Pictet presents SEAN, a door whose astonishing colour is matched by its extraordinary decorative presence.

It is made from extra-white 19mm laminated glass whose reverse side has been engraved with a diamond blade then coated with green metallic leaf and gold leaf whose shimmering tones accentuate the contours of the pattern.

The patinated brass frame is completed by a cast bronze handle that exactly replicates the engraving on the glass.

Other patterns, colours and finishes can be proposed.

Matières à l'œuvre, Matière à penser, Manière de faire is staged by Institut National des Métiers d'Art in partnership with Mobilier National and under the patronage of the Fondation Bettencourt Schueller, as part of European Artistic Crafts Days.

The works shown are demonstrations of the exceptional savoir-faire that characterises the artistic crafts and living heritage.
