

GLASSMAKER BERNARD PICTET WAS AT SALON AD MATIERES D'ART IN PARIS FROM March 23 TO April 1, 2018

The exhibition was a resounding success, with more than 10,000 visitors.

Bernard Pictet is showing eighteen examples of decorative glass at Salon AD Matières d'Art.

They have been chosen from more than 200 samples at the showroom to illustrate the multiple inspirations, techniques, styles and applications of glass by Bernard Pictet.

For optimal effect within the environment of AD Matières d'Art, all the glass shown is opaque. The majority of these samples can, however, be proposed with different colours, textures, degrees of transparency and opalescence.

Diversity is the hallmark of the Studio's work; originality, singularity, visual impact and flawless execution are the common denominators.

Atelier Bernard Pictet has been designing and producing original and prestigious glass products for more than 30 years.

The Studio works with leading interior designers for an international clientele and exports 80% of its production.

Atelier Bernard Pictet is a Living Heritage Company, and member of the Prestige et Tradition and Grands Ateliers de France trade associations.
